Experience

Freelance Web Designer / Developer

Remote

Vince Web Designs

Jan 2023 - Current

- Lead the full website design and development process for clients, from requirement gathering to launch
- Maintain client websites, troubleshoot issues, and provide edits on an as-needed basis
- Consult with clients to provide expert guidance on website optimization, performance, and best practices

Frontend Web Developer

Remote

Rise

Nov 2023 - Nov 2024

- Independently built custom, responsive websites while developing a modular system of reusable components to streamline future projects
- Developed custom frontend and backend features, integrating Google Cloud Platform and third-party APIs
- Implemented Google Tag Manager and Google Analytics to track user behavior and site performance
- Optimized website performance and search rankings through on-page and technical SEO best practices
- Configured and launched websites using WHM and Cloudflare, ensuring proper DNS setup and optimized performance
- Managed multiple projects concurrently, actively contributing to development tasks while ensuring deadlines were met
- Led and collaborated with developers to estimate tasks, document processes, resolve blockers, and communicate progress with clients

Projects

Dropr

[GitHub Repository](#) 

- Developed the user interface for a project that allows users to receive information on latest product drops from popular companies
